COLLAR CARE GUIDE

BUILT FOR ADVENTURE.

A little regular care helps keep your Wulftac collar clean, reliable and ready for the next mission.

HOW TO CLEAN YOUR COLLAR

01	REMOVE LOOSE DIRT Brush or shake off loose dirt, sand, grass and debris.
02	RINSE Rinse thoroughly with clean, lukewarm water.
03	WASH GENTLY Use a small amount of mild soap or gentle detergent. Work it into the webbing or rope by hand or with a soft brush.
04	RINSE AGAIN Remove all soap residue with clean water.
05	AIR DRY Hang in a well-ventilated area and allow the collar to dry completely before use.

HARDWARE CARE

- Rinse off mud, salt water and dirt after use.
- Pay attention to buckles, D-rings, O-rings and clips.
- Wipe away excess moisture.
- Allow hardware to dry completely.

DO NOT

- Use bleach or harsh chemicals.
- Use solvents or abrasive cleaners.
- Machine wash unless the product specifically says it is safe.
- Tumble dry, iron or expose to excessive heat.
- Store the collar while damp.

REGULAR SAFETY CHECK

✓	WEBBING / ROPE — Check for fraying, cuts, excessive wear or damage.
✓	STITCHING — Check that stitching remains secure and intact.
✓	HARDWARE — Check buckles, D-rings, O-rings and clips for cracks, bending or excessive wear.
✓	FIT — Make sure the collar remains correctly adjusted and secure on your dog.

AFTER WATER / BEACH USE
Rinse thoroughly with fresh water after exposure to salt water, chlorine, mud or dirty water. Air dry completely.

STORAGE
Store clean and dry, away from direct sunlight, excessive heat and prolonged moisture.

IMPORTANT: If you notice significant wear, damage, fraying, broken stitching or damaged hardware, discontinue use and replace the collar.

CARE REMINDER
Regular cleaning and inspection will help you get the best performance and lifespan from your Wulftac collar.
