TRAINING TOYS CARE GUIDE

TRAIN. PLAY. REPEAT.

For Wulftac EVA Foam Balls and Chew King Rubber Balls with 6mm and 8mm rope. Regular cleaning and inspection helps keep your training gear in good condition.

HOW TO CLEAN YOUR TRAINING TOY

01	REMOVE LOOSE DIRT Shake or brush off loose dirt, sand, grass and debris from the ball and rope.
02	RINSE Rinse thoroughly with clean, lukewarm water.
03	WASH GENTLY Use mild soap or gentle detergent. Clean the ball and rope by hand or with a soft brush.
04	RINSE THOROUGHLY Remove all soap residue with clean water.
05	AIR DRY COMPLETELY Allow the ball and rope to dry completely in a well-ventilated area before use or storage.

EVA FOAM BALLS
Clean with lukewarm water and mild soap. Wipe or brush away dirt gently. Allow to dry completely. Avoid harsh chemicals or abrasive cleaning products, which may damage the foam.

CHEW KING RUBBER BALLS
Rinse with clean water and use mild soap if needed. Clean around the rope attachment carefully. Inspect regularly for cracks, tears or damage and allow to dry completely before storing.

PRO TIP
Do not store the training toy while damp. Moisture can contribute to odours and premature wear of the rope or toy.

REGULAR SAFETY CHECK

✓	BALL CONDITION — Check for cracks, tears, punctures, excessive wear, missing pieces or changes in shape.
✓	ROPE — Check 6mm and 8mm rope for fraying, cuts, broken fibres, excessive fuzzing or thinning.
✓	KNOTS / ATTACHMENT — Check that knots and rope attachments remain secure and have not loosened or shifted.
✓	STITCHING — Check all stitched areas for loose, broken or pulled stitching.
✓	HARDWARE — If applicable, check clips, rings and attachment hardware for cracks, bending or excessive wear.

⚠ IMPORTANT SAFETY INFORMATION

- Wulftac training toys are designed for interactive play and training only.
- These are NOT chew toys.
- Always supervise your dog while the toy is being used.
- Do not leave your dog unattended with the toy.
- Ingesting pieces of the ball, rubber or rope can be harmful and may cause serious injury or internal blockage.
- If the toy becomes damaged, worn or pieces begin to break off, discontinue use immediately and replace it.
- Choose the correct size and type of training toy for your dog.

USE AS INTENDED

Use your Wulftac training toy for interactive training, retrieval and play. The toy is not indestructible and its lifespan will depend on intensity of use, your dog's play style and training goals.

AVOID

- Leaving the toy unattended with your dog
- Using it as a chew toy
- Bleach or harsh chemicals
- Solvents or abrasive cleaners
- Excessive heat or prolonged direct sunlight
- Using a damaged toy

STORAGE

Store your training toy clean and completely dry in a cool, dry place away from direct sunlight, excessive heat and prolonged moisture.

REPLACE WHEN NEEDED

Replace the training toy if you notice significant wear, damage, cracks, tears or if parts begin to break off.
